Directions to Customers

PRICES—This catalog cancels all previous offers.

ORDERING—We aim to execute orders as soon as received, but in rush season slight delays are unavoidable. This can largely be overcome by our patrons ordering early and giving a shipping date so that we can arrange the orders in such a way that they will receive their plants on the date they wish them.

TERMS—Those desiring to open accounts will please furnish three references to parties with whom they have had credit relations and sufficient time to investigate, otherwise cash must accompany order.

Remittances should be made by Post Office Money Orders, Drafts on New York or Philadelphia banks, or Express Money Orders, in amount sufficient to cover the complete order. Where it is not possible to obtain these, the letter should be registered. We cannot guarantee receipt of money sent in any other way. We reserve the right to decline C.O.D. orders.

No charge is made for boxes or packing.

In filling out your order, always give shipping directions, and write NAME and ADDRESS DISTINCTLY on each and every order.

SHIPPING—It is customary for our patrons to receive their orders from us in perfect condition. However, there are times when plants arrive in a slightly withered condition. We would advise, then, to place roots only in water, in order to revive them. Never plant a withered plant.

Claims for shortage, etc., must be made within five (5) days after receipt of goods.

HOW WE SHIP—All orders are forwarded by Express or Parcel Post, purchaser paying charges. For those of our customers who prefer to receive their goods prepaid, either by express or parcel post, we would be pleased to forward in that manner with the additional cost added to the order. Rate as per states is listed hereon. We recommend our customers to have their orders forwarded by express as our experience shows that this method is usually the most satisfactory, except on small packages.

Pansy Culture

ON this page we wish to give information that may help our customers to grow Pansies at their best. Our specialty is Pansies and we feel that a good descripton on how to grow them would be very appropriate. We realize that most people are able to grow them with success yet it is quite frequent for us to receive letters from customers, saying that their Pansies were not as good as the previous year and asking us for a reason. Sometimes they had in mind that our strain was not as good as the year previous. We wish to say that if the following rules are followed carefully there is no reason why you should have a failure in Pansies in any particular year.

Pansies can be grown on any well drained soil. If your soil is heavy and gets soggy in wet weather, the beds should be raised at least 4 inches above the level. Add a little sand; it will help to lighten the soil. This need be done only in extremely heavy soil. Be sure and always have plenty of humus in your soil, it will help a lot toward drainage.

Always bear in mind, in order to have large and beautiful flowers, the soil should be very rich. Fertilize your beds a month or two before planting when possible; use well rotted stable manure liberally. We find it best to use fresh stable manure, humus and soil, and allow it to remain in a pile until it rots down. When thoroughly rotted mix and apply to the bed. Commercial fertilizer can be used with success if applied intelligently, using for humus, peat moss, well rotted manure, dead leaves or like material.

When preparing for planting, pulverize the soil to a depth of 6 inches or more; firm the soil. Place plants no less than 4 inches square, up to 9 inches is better if you have the space. Put roots in ground only as deep as they were in nursery. If ground is sticky, wait until it dries a little. In hot, dry weather, water thoroughly after planting, shading the bed during heat of day until plants are rooted. In the South, little or no covering will be necessary to carry plants over winter. In the colder states, if plants are wintered in the open, would advise mulching with some light material such as hay, straw, evergreen boughs, etc.

Do not cover so heavily that the plants cannot be seen, otherwise you will smother them. They should not be covered until the ground is frozen hard. At our nursery we find about December 15th to be the proper time to mulch for the Winter.

PITZONKA'S *Giant-Flowering* MIXTURE

THIS variety represents the efforts of over 40 years of careful selection and improvement. The flowers are giant in size and perfectly shaped, with long, strong stems. The petals are velvety, some semi-double at edge. This strain comprises a most beautiful collection of colorings and markings. Variegated colorings ranging from delicate orchid and yellow tints to deep reds, blues and purples. The plants are robust and healthy, very compact and bloom profusely.

For general purposes, we find PITZONKA'S GIANT FLOWERING MIXTURE the most popular.

PITZONKA'S *Prize* MIXTURE

THIS mixture represents our choicest stock. It has been carefully selected and made up of only the brightest colors. The plants are robust and healthy. Being of neat, compact growth and producing enormous, perfectly shaped flowers of uniform size, borne on strong, vigorous stems with thick, velvety petals.

This variety is made up of colors which are entirely new to our other strain, Pitzonka's Giant Flowering Mixture. It includes several shades of red and pink, a rich yellow, a blue, lavender, orchid, purple, black and many other outstanding colors. We have tried to incorporate into these Pansies the pencil stripes and blotched varieties, doing away with the variegated ones which are of no particular shade. Many of the flowers are of solid colors such as pure white, yellow, purple, etc.

We have been improving this strain continuously for several years and do not hesitate in saying that this is the finest mixture of Pansies we have ever seen.

NAMED VARIETIES

In Separate Colors

THE following varieties are solid colors and not variegated flowers such as Pitzonka's Giant Flowering Mixture or Pitzonka's Prize Mixture. They are for those interested in landscape gardening and special color schemes. Also fine for planting for cut flower purposes. They are giant in size but not quite as large as the variegated strains.

(Can't furnish less than 50 of any one color)

LORD BEACONSFIELD
Deep purple violet shading off in the top petals to a white line. Excellent for planting on graves.

BRONZE
Peculiar shades in bronze.

GOLDEN QUEEN
Bright pure golden yellow.

GOLDEN YELLOW
Golden yellow with large brown eye.

LAKE OF THUN
True splendid ultramarine blue. The most beautiful of all blue Pansies. An exact duplicate of the Emperor William. Flowers much larger. Makes an excellent combination when used with Golden Queen.

SNOW QUEEN
Pure white.

VULCAN
Dark red.

ROYAL

PANSY NOVELTIES

ALP-GLOW. A novelty of highest perfection in a rich ruby red. Flowers enormous in size.

BLUE BOY. This novelty shows a clear and pure silver lilac, a coloring hitherto unknown among Pansies. A bed of this variety gives an effect of striking beauty.

GIANT ADONIS. A much desired Pansy in pleasing shades of light blues and lavenders.

MAPLE LEAF GIANT. A distinct variety introduced four years ago, having very large leaves and flowers of gigantic size, 4 to 5 inches across, perfectly round, of heavy substance and in many attractive colors and color combinations.

MLLE. IRENE. A shade entirely new to Pansies—a henna-red.

65c. per 25; $2.00 per 100

No less than 50 at the 100 rate, 250 at the 1000 rate. Minimum order $2.00

The above are photographs

of the large and regular size Pansy plants. They are greatly reduced, of course, but it shows the stocky, vigorous plants, and note the wonderful root system. Our soil is somewhat sandy, which accounts for the good roots.

The large size Pansies are more developed and, of course, will come to bloom a few weeks earlier than the regular size. The large size will also produce more flowers at the start.

The regular size will take a little longer to develop, but should be just as nice in the end. We recommend the large size for greenhouse Winter blooming.

BELLIS

BELLIS · English Daisy

This is one of the lovely edging perennials with gay, button-shaped flowers in early Spring. The flowers are double, on stems about 6 inches long. With proper care will bloom well into the Summer.

They thrive best in moist and somewhat shady situations, should be mulched where the ground freezes. Directions on growing follow Pansy culture.

Longfellow. Pink. Flowers not as large as the Monstrosa but a more prolific bloomer.

Monstrosa Rose. This variety surpasses all other strains in its strong, robust growth and extra large, double flowers.

Monstrosa Red. Type as above.

Monstrosa White. " " "

Monstrosa Mixed. " " "

$5.25 per 1000, 75c. per 100

Monstrosa tubulosa Etna (*Novelty*). This is a new variety of particular interest. The flowers are quilled, slightly smaller than the other Monstrosa varieties but most beautiful. Dark red.

$1.00 per 100

MYOSOTIS · Forget-me-not

A lovely, dwarf growing plant. Admirably adapted for borders and bedding. Especially in combination with Tulips and Hyacinths. They should be given slight protection through the Winter.

Alpestris Victoria. Of bushy habit, bearing large, azure blue flowers; very fine. Height 6 in.

Alpestris Victoria Indigo Blue. Indigo blue. Type as above.

Alpestris Victoria Rose. Rose. Type as above.

Robusta grandiflora. Of strong growth, clusters of large, clear blue flowers. Grows 10 in. high.

$6.00 per 1000, 90c. per 100

MYOSOTIS

No less than 50 at the 100 rate, 250 at the 1000 rate. Minimum order $2.00

VIOLAS · Tufted Pansies

BEDDING VARIETIES

Violas are indispensable for Spring gardening, and if the dead blooms are regularly removed the plants will continue to flower profusely until late in Autumn. This valuable plant is perfectly hardy, and may be grown in the same manner as Pansies. Colors may be arranged to work out color schemes. Height 6 inches.

ADMIRATION. Deep violet.

BLUE PERFECTION. Deep purplish blue.

LUTEA SPLENDENS. Rich golden yellow.

MAUVE QUEEN. Unusual pinkish lavender.

PAPILIO (Butterfly Violet). Showy blooms of a beautiful violet-lilac color.

WHITE PERFECTION. A fine white.

MIXED. A mixture made up of a wide range of colors.

$1.00 per 100, $7.50 per 1000

APRICOT QUEEN

APRICOT QUEEN

A fascinating shade of apricot, orange toward the center, that compels the immediate attention and admiration of all who see it. We find that the best results are obtained by planting in full sun.

$2.00 per 100

(Can't furnish less than 25 plants of any one color)

VIOLA NOVELTIES

ARKWRIGHT RUBY

This new variety is of the large flowered type; color a beautiful bright rosy crimson, with terra cotta shadings, making it a very outstanding variety with the added attraction of being very fragrant.

BOSNIACA

Dwarf, very free flowering, deep red. Excellent for rockeries and edgings as it blooms the entire season.

BOWELS' BLACK

Excellent for rockeries, growth upright. Flowers during the whole season. Rare.

GRACILIS LORD NELSON

Glowing violet purple. Flowering period begins in March and ends in late Fall.

LAVENDER GEM

A delightful compact plant with large, bright lavender flowers. One of the finest novelties.

ROSY GEM

One of the new novelties developed in this group. Bright rose flowers. Neat growing.

WHITE GEM

New. Large pure white flowers. A charming novelty.

YELLOW GEM

Another large flowered type; color deep pure yellow. Plants are of robust habit and of a very free flowering nature; a decided acquisition to the Viola group.

Perennials

THE growing popularity of the Hardy Perennial Garden and the great interest that is shown in Rock Gardens warrants us to list what we consider the most interesting of Perennials for either the Rockery or the Hardy Border.

We have carefully revised our list, using only the most interesting and useful varieties, considering the border plants as to cut flowers, beautification and their season of bloom. In planting plants, that is putting two or three to the group, the taller ones should be placed to the rear of the bed. Do not crowd them. Allow a little space here and there through the bed for your Annuals, enabling one to have a floral display throughout the greater part of the entire season.

In the Spring, starting with the Pansies, Myosotis, Bellis and Primulas for bordering shrubbery and Rose beds and to brighten the edge of the border as well. Then following with other plants that bloom later, such as the Geum, Alyssum and Doronicum. Later moving into the season with Pinks, Carnations, Pyrethrums, Digitalis, Hollyhocks, Canterbury-bells, Sweet-william, Phlox, and many different kinds of Delphiniums, including the newer hybrids. Still later in the Summer, the Anemones, Eupatorium, Chrysanthemums and Tritoma and many other plants until the season's end.

The Rock Garden list also includes plants that should give color during the entire season. There is always a tendency to select plants that are in full bloom, when planting a new bed in the Spring, but by careful planning using the Sedums, Thymes, Alyssums, Primulas and many other plants an interesting rockery can be had covering the whole season.

In the Summer, the beds should be mulched with peat moss at least one inch thick. This will give the plants protection against droughts. For the Winter we must protect them during the severe part, being careful not to cover too early. After the ground is frozen is the right time. Use only light material for the plants that retain their foliage such as the Digitalis, Canterbury-bells, Shasta Daisy and Coreopsis. Straw is good for covering. Remove in the Spring when growing weather starts.

Achillea Ptarmica, The Pearl

Hardy Plants

Our plants are all field grown and transplanted frequently to insure a good root system. Our business is to grow and sell plants. We try to do this to the best interest of our customers, for success with them means success with us. We are not in a position to submit plans or blueprints on layouts for planting, but are always willing to answer queries and offer any information on books and pamphlets that may assist you in Gardening and Home Planting.

The plants that are adapted for rock garden planting are preceded by a star (*)

ACHILLEA · Milfoil or Yarrow

***Argenteum.** A pretty alpine of compact habit. Yellow, sweet scented. Blooms in June. Suitable for low borders or rock garden. 20c. each, $1.50 per 10, $9.00 per 100.

Filipendulina. This fine plant from the shores of the Caspian Sea grows 2 to 3 ft. high, flowers bright yellow, in flat heads, and with lace like foliage. June to September. Nice to plant among shrubbery, evergreens, or for back border. Also a good flower for basket work. 20c. each, $1.50 per 10, $9.00 per 100.

Millefolium roseum. Finely cut, deep green foliage, pink flowers in dense heads and found all Summer. Suitable for general use. 20c. each, $1.50 per 10, $9.00 per 100.

The Pearl. Pure white flowers borne in the greatest profusion the entire Summer, on strong, erect stems, 2 ft. high; as a Summer cut flower it is of great value. 20c. each, $1.50 per 10, $9.00 per 100.

Perry's White. A choice variety. Nothing better for cutting. An excellent filler. The whitest of all Achilleas, and an outstanding favorite for Summer flowers. 1 to 2 ft. June to August. 20c. each, $1.50 per 10, $9.00 per 100.

***Tomentosa.** A very charming yellow flowered plant, blooming in June. It will do in the rockery or in any part of the border. While it grows naturally on dry, rocky soil, it has done equally as well on lower and more moist levels. 6 to 8 in. 25c. each, $1.80 per 10, $12.00 per 100.

ACONITUM · Monkshood

Fischeri. A dwarf, dark blue, Autumn flowering plant with pretty spikes of hood-shaped flowers blooming from September to November. It is the hardiest and most useful of all Aconites and works beautifully in the medium border, furnishing flowers late in the season when most plants are waning. 15 in. to 2 ft. tall. 25c. each, $1.80 per 10, $12.00 per 100.

Napellus. Upright, single spike reaching a height of about 3 to 4 ft. The straight spike is covered during July and August with dark blue flowers. Light shade and light clay soil are preferred. 25c. each, $1.80 per 10, $12.00 per 100.

Sparks Variety. The darkest blue of all; 30 in. high. As a Summer cut flower it is of great value. 25c. each, $1.80 per 10, $12.00 per 100.

CENTAUREA MONTANA

Chrysanthemums, Hardy

This flower, above all others, is a necessary addition to the garden. The inclusion of Hardy Chrysanthemums in your planting makes it possible to have the garden bright with flowers after the majority of hardy herbaceous flowers are past. They are also valuable for cut flowers.

We have gone over the many varieties and selected those which are most satisfactory for garden culture. Including the most popular and best of the older varieties and some of the newer introductions.

In the newer introductions of Chrysanthemums we have varieties that are as hardy as the older ones, but bloom earlier, which gives us a longer flowering period They also consist of colors which were never brought out in Chrysanthemums before. These are features of interest in considering the new kinds. It is also possible to have varieties that bloom from July until November.

Aladdin (*Novelty*). This new, early flowering Chrysanthemum has proved extremely valuable under good growing conditions, flowering freely from early August on. The color is somewhat variable but always an attractive shade of bronze. 35c. each, $3.00 per 10.

Barbara Cumming (1928 introduction). Very attractive, large, full flower of the Decorative type. Over 3 in. across and clear yellow in color, shading to orange bronze toward the center. It commences flowering in late August and continues until late October. Vigorous and branchy, attaining 2 ft. 25c. each. $1.80 per 10, $12.00 per 100.

Cavalier (*Novelty*) (1934 introduction). This dazzling single variety will prove a most desirable addition. The color is a rich vermilion red that does not fade. It is free flowering, of fine, robust branching habit, making a gorgeous showing from October 15th on. 35c. each, $3.00 per 100.

Crimson Splendor (*Novelty*) (1933 introduction). A magnificent and distinct variety producing masses of rich crimson maroon flowers, the color of which is intensified with deep garnet tones, contrasting effectively with a prominent golden yellow center. The blooms are large, fully 4 inches in diameter and of exceptional keeping qualities. Flowering in late September, it is fully two weeks earlier than Mrs. Calvin Coolidge or Dazzler. Altogether a real advance and a glorious garden variety. Height 2 ft. 35c. each, $3.00 per 10.

Daybreak (1932 introduction). Virtually a duplicate of the lovely and popular Seashell. Daybreak will flower with us about October 10th, two weeks before Seashell, and can be depended on for a fine display each season. The flower is of single type, almost 3 in. across, soft shell pink in color, and has a noticeable fragrance. Splendid variety for cutting or garden display. Strong and free growing. Height 2 ft. 35c. each, $2.50 per 10, $18.00 per 100.

Gypsy Girl (1928 introduction). A garden variety of the single type, crimson in color, shading to chestnut crimson. It commences blooming in early October, resisting early frost, and it flowers well into November. 25c. each, $1.80 per 10, $12.00 per 100.

Innocence (*Novelty*) (1934 introduction). An effective, dwarf growing hybrid of the Korean Chrysanthemum. Will prove perfectly hardy and extremely useful for massing, bordering, or grouping. Seldom exceeds 18 inches in height and has a spread of about 2 ft. Single flowers 2½ inches across, opening pure white and changing to an attractive soft pink. 35c. each, $3.00 per 10.

Frances Whittlesey (1931 introduction). A very decided improvement in this particular color. Habit is stocky and dwarf, averaging 18 in. in height. Color, rich bronze and garnet—just right for the Fall garden. It commences to flower in late September and makes a gorgeous showing through October, having the ability to resist considerable frost in the open flowers. 35c. each, $2.50 per 10, $18.00 per 100.

Granny Scovill (*Novelty*) (1934 introduction). A lovely, large flower fully 4½ inches across and of nice, fluffy form. The color is a warm coral-bronze. Dwarf and branching growth with fine healthy foliage. Not too hardy but sufficiently outstanding in other respects to merit additional Winter care. In full bloom October 10th. Height 2 ft. 35c. each, $3.00 per 10.

Jean Cumming (1931 introduction). This variety is regarded as a very great improvement on older white varieties. Large flowers of purest white, with the softest yellow and blush shading at the center of the buds. Growth erect and wiry; height medium. Commences flowering about September 15th, and having exceptional keeping qualities, is undoubtedly the best white variety to date. 35c. each, $2.50 per 10, $18.00 per 100.

Jean Treadway (*Novelty*) (1933 introduction). Distinctiveness in color and growth, and extreme freedom are the outstanding features in this introduction. The flower is large, fully 3 in. across, of perfect Decorative or Aster formation, and of excellent substance. On opening, the color is a lovely sparkling pink, with a dark rose pink center, but when fully open it becomes a nice, soft lilac pink, shading to white. It is much more attractive than the description would imply. The plants are of medium height, bushy in growth, and very free. In full flower September 30th. 30c. each, $2.50 per 10, $18.00 per 100.

Lillian Doty. Medium early, ball-shaped light rose. 25c. each, $1.80 per 10, $12.00 per 100.

Marie Antoinette. A late, sure blooming sort, bushy and very free flowering. Excellent, deep pink flowers. 25c. each, $1.80 per 10, $12.00 per 100.

Mrs. J. Willis Martin. Crushed Strawberry in color. One of the most beautiful varieties, and on account of its exquisite shade is very popular. 25c. each, $1.80 per 10, $12.00 per 100.

Mrs. Phillips. The large Daisylike, single pink flowers with a clear golden center are often 3 to 4 in. across. It is an outstanding single variety noted for freedom of bloom and hardiness. 25c. each, $1.80 per 10, $12.00 per 100.

No less than 5 at the 10 rate, 25 at the 100 rate. Minimum order $2.00

CHRYSANTHEMUM—Continued

October Dawn (1931 introduction). Lovely shade of soft daybreak pink, entirely free from contrasting tints. This variety will greatly appeal to those who appreciate the more delicate color effects. The flowers are of good size, full-petaled, and of nice decorative type. It is of medium height, but well branched, bushy and very free and effective in the garden or as a cut flower. Commences flowering about October 5th. 30c. each, $2.00 per 10, $15.00 per 100.

October Girl (1929 introduction). This most prolific flowering variety is of vigorous and branchy habit. The flowers are single or semi-double, fully 2 in. across, pink on opening, becoming shaded with lavender when fully opened. In full flower by October 1st. 30c. each, $2.00 per 10, $15.00 per 100.

Provence. Early and dwarf, very free flowering sort. Pale pink flowers fading to white with yellow center. Excellent cut flower and hardy. Height 18 in. 25c. each, $1.80 per 10, $12.00 per 100.

R. Marion Hatton (1931 introduction). For mass color effect in the garden, we know of no other variety comparable to this new yellow. The flower is of the Decorative Pompon type, not large or impressive in itself, but in addition to exceptional freedom in blooming it is one of the earliest to flower, and certainly the brightest canary yellow available. Flowers from late September on. Resists frost well. 35c. each, $2.50 per 10, $18.00 per 100.

Ruth Hatton (1929 introduction). An exceptionally prolific variety of vigorous and bushy growth. This decorative Pompon type when fully opened, is clear ivory white; when partially opened, a delicate shade of lemon yellow. Resists light frost and is normally in full flower about October 10th. 30c. each, $2.00 per 10, $15.00 per 100.

Ruth Cumming. Although introduced several years ago this variety is considered by some authorities to be the best all-around garden Chrysanthemum. The color is rich reddish bronze with terra cotta shades, aging to an even, soft bronze tone. Blooms about October 10th. 25c. each, $1.80 per 10, $12.00 per 100.

Skibo. A midseason button of medium height. Flowers bronze, changing to a rich yellow, retaining a small, bronzy center. 25c. each, $1.80 per 10, $12.00 per 100.

Vivid (1932 introduction). A very striking and effective variety, the color of which very closely approaches that of the American Beauty Rose—a rosy crimson or amaranth shade new to the earlier flowering Chrysanthemums. Flowering about October 1st. It is extremely vigorous and very free. 35c. each, $2.50 per 10, $18.00 per 100.

Winnetka. Decorative. Blooms in early October, growing 2 ft. high. Lovely large shaggy flowers of pale pink and yellow, turning white. 25c. each, $1.80 per 10, $12.00 per 100.

Yellow Gem (*Novelty*) (1932 introduction). This very neat and attractive Pompon carries many well formed small flowers less than an inch across. The color is bright canary yellow without shading. and the growth is wiry and compact, averaging 18 in. in height. Altogether one of the finest Button Chrysanthemums, splendid for cutting. Blooming in early October. 30c. each, $2.00 per 10, $15.00 per 100.

SHASTA DAISY

CHRYSANTHEMUM MAXIMUM

GERMAN IRIS

No flower creates more interest than the German Iris. The rapid improvement that has been made in bringing out new varieties has made the field large and we have selected what we think is the best of all the new and some of the older varieties. The selection found here covers the color range and we have been particular to select the strongest growers and only those that are hardiest in our locality.

Iris thrive best in good rich garden loam, dug deep, but will do well in almost any soil. They need full sun and should have no manure or fertilizer but plenty of bonemeal. Break up the clumps and replant every three or four years, planting the rhizomes so that the roots are just covered.

In our list, S—Standards or upper petals; F—Falls, or lower petals. Each variety is followed by the name of the originator and date of introduction.

Alcazar (Vilmorin 1910). S. light mauve; F. deep purple. A very handsome dark Iris. Recommended as a specimen plant for the lawn. 25c. each.

Aubade (*Novelty*) (Connell, 1931). A gorgeous and gratifying novelty in the buff and tan pastel shades. $5.00 each.

Ballerine (Vilmorin 1920). S. pale beautiful blue lavender, broad waved at the margins; F. a little deeper and very broad. A splendid grower and free bloomer. Early and very fragrant. 25c. each.

Blue Velvet (*Novelty*) (Loomis 1929). A self color of the deepest, richest, most velvety blue. Almost black when first open. This gorgeous Iris is one of the most striking of recent introductions. $2.00 each.

Caprice. (Vilmorin 1904). S. reddish purple; F. deeper purple. 25c. each.

Chromylla (*Novelty*) (Loomis, 1931). A premier yellow of fine form and good substance, carries its light gold color well and holds up very well in a hot sun. $7.50 each.

Coronation (Moore, 1927). A super Iris and one of the best yellows in the entire group. Good height and branching, medium sized flowers of a good, deep color that does not fade. It is solid throughout and you cannot go wrong in having it. 50c. each.

Dauntless (*Novelty*) (Connell 1928). Very brilliant rose red of very pure tone, one of the most striking Irises in the garden. Dauntless was awarded the Dykes Medal in 1929 as the most outstanding introduction of the year. $2.00 each.

Dolly Madison (Williamson 1927). Palest mauve to deep yellow at the base. A beautiful blend of the Quaker Lady type but far more delicately colored. Very fine large flowers on strong stems. 50c. each.

Elsinore (Hall 1925). Pale primrose yellow blooms pleasingly edged and shaded with violet crimson. Delightfully different from all other Iris. 35c. each.

Fairy (Kennicott 1905). White, narrowly margined pale blue. A pretty Plicata and one of the most sweetly scented of all Iris. 25c. each.

IRIS GERMANICA

Frieda Mohr (Mohr 1926). Height, size, color, substance—all are here. A bicolor in lilac rose pink. One of America's peers. 50c. each.

Frivolite (Cayeux, 1929). Stands have the best tone of pink of any Iris. Falls are a little darker shade with a few darker veins. An Iris bound to grow in favor. One of the best Pink. $2.00 each.

Germaine Perthuis (Millet 1924). S. bronzy violet purple; F. deep rich Bishop's violet. Tall and large flowered. Very fragrant. 35c. each.

Indian Chief (Ayres, 1929). A handsome comrade to Dauntless, but more of a bi-color. A fine red with an undertone of brown. $1.00 each.

Isoline (Vilmorin 1904). S. silvery rose, flushed yellow; F. purplish rose shot and veined with gold. The entire bloom is overlaid with a sparkling iridescence. Very unique. 25c. each.

King Tut (H. P. Sass 1926). S. light red, with a suffusion of orange brown; F. deeper red, also suffused light brown. Haft and beard golden yellow. Fine and very popular. 50c. each.

Lord of June (Yeld 1911). S. chicory blue; F. lavender violet. One of the most popular of all Iris. Delightfully fragrant. 25c. each.

Midgard (H. P. Sass 1926). S. and F. yellow, overlaid peach pink, with silvery iridescent, mother of pearl tints. Strong, fast grower and exceedingly popular. 50c. each.

Mildred Presby (Farr 1923). S. clear white; F. rich dark, velvety Pansy violet with a narrow edge of lavender white. The clearest and best Amoena. 25c. each.

Morning Splendor (Shull 1922). One of the finest, large, tall, velvety reds. One of America's most greatly admired Irises. 25c. each.

GERMAN IRIS—Continued

Ophelia (Cayeux 1925). A medley of bronzed buff with lilac and heliotrope suffusion. Very beautiful and recommended. 35c. each.

Pluie d'Or (*Novelty*) (Cayeux 1928). A pure, brilliant yellow self. The color is pleasing and carries well. Very hardy and increases rapidly. $1.00 each.

Quaker Lady (Farr 1939). S. smoky lavender shaded yellow; F. Ageratum blue and old gold. 25c. each.

Queen Caterina (Sturtevant 1918). A large pale lavender self with a sparkling iridescent sheen. One of our most beautiful and popular Irises. A free bloomer and splendid grower. 25c. each.

Rene Cayeux (Cayeux 1924). S. white slightly shaded lilac; F. crimson violet. General effect is white and crimson. 50c. each.

Rhein Nixe (G. & K. 1910). One of the few old Iris still holding its own. A very good garden clump. S. white; F. rich violet purple. 25c. each.

Rose Dominion (*Novelty*) (Connell 1931). A rose color with Dominion form, heavy substance and pleasing height. An Iris of real value. $4.00 each.

Seminole (Farr 1920). A rich dark rose red, shaded violet. It makes a beautiful rose red mass. A very pleasing color that is highly recommended. 25c. each.

Sir Michael (Yeld 1925). S. clear brilliant lavender blue; F. deep, rich, velvety blue purple with a fine red brown glow at the haft. Beard is brilliant red gold. A color you will never forget. $1.00 each.

Snow White (Sturtevant 1926). Pure snow white with the largest blooms of any hardy easily grown white. Tall and very beautiful. 35c. each.

Souv. de Loetitia Michaud (Millet, 1923). A queenly beauty, with a glistening gold heart and beard against which is a foil of soft lavender blue. 50c. each.

IRIS PUMILA CRISTATA

True Charm (Sturtevant 1921). Of very high quality. A very daintily edged blue on white. Beautiful type of Plicata. 25c. each.

Venus de Milo (*Novelty*) (Ayres, 1932). A rich, very pure white of unusual substance and fine form. An Iris sure to make its mark in the Iris world. $1.50 each.

Waconda (*Novelty*) (H. P. Sass 1930). S. deep Fuchsia red; F. rich velvety violet carmine. Good tall grower and a very fine Iris. $1.00 each.

FALL BLOOMING IRIS

These Iris require the same treatment as the other bearded types but favor them with the warmest corner of your garden where there is the most protection from any possible early or late frost. They are hailed as a decided improvement in the south as they come to bloom after the long, dry Summer and give a wealth of bloom without any special care. In the north they need protection during the Winter.

Autumn King (H. P. Sass 1924). A blue purple bicolor and an old standby. 25c. each.

Autumn Queen (H. P. Sass 1926). A very free Fall bloomer, pure white. 35c. each.

Golden Harvest (H. P. Sass 1926). S. and F. citron yellow, suffused olive at haft and base of S. Brilliant orange beard. You can imagine nothing more beautiful than to walk down your garden in late September and find the lovely yellow blooms of Golden Harvest, the blue of Autumn King and the white of Autumn Queen in all their glory. $1.00 each.

SEDUM IN ROCKERY

SEDUM · Stonecrop

The Sedums may be considered the mainstay of the rock garden. Given an inch of dirt for their roots and a few drops of water 2 or 3 times during the Summer they will thrive amazingly. Give your other plants the best soil in the rockery but reserve your Sedums for the crevices, dry spots and poorest places you can find among the rocks. If a rock has a hollow on top, put a few handfuls of earth there and plant one of the dwarf Sedums and it will be happy and so will the gardener. The varieties offered below are all distinct from each other and are some of the best varieties in cultivation.

25c. each, $1.80 per 10

CHIONODOXA · Glory-of-the-snow

This is one of the hardiest, most easily cultivated and one of the most beautiful of the early Spring-flowering bulbs for mass planting. They bloom about the same time as the Crocuses. Can be planted everywhere 3 to 4 inches deep and 2 to 3 inches apart.

Luciliae. Bright blue with white center. 30c. per doz., $2.25 per 100.

CROCUSES · Large Flowering

Crocuses are most effective when planted in masses on the lawn, or arranged in three or four rows of one color in the border. Planted between shrubs, along hedges, or in the rock garden they make a gay display as early as March and April.

May be left in the ground for three or four years after planting without being disturbed.

Plant Crocuses only about 1 inch deep.

Baron Von Brunow. Large blue. 45c. per doz., $3.00 per 100.

Mont Blanc. Old favorite pure white. 45c. per doz., $3.00 per 100.

Purpurea Grandiflora. The finest purple Crocus. 75c. per doz., $5.00 per 100.

Yellow Mammoth. Pure golden yellow. 45c. per doz., $3.00 per 100.

All Colors Mixed. 35c. per doz., $2.75 per 100.

ERANTHIS HYEMALIS
Winter Aconite

Early in Spring the golden blossoms look charming. They rest on a deep green cushion of leaves and form a striking contrast to the Snowdrops, Scillas and Chionodoxas. No rock garden should be without them. Plant 2 inches deep and about 15 bulbs to the square foot.

50c. per doz., $3.25 per 100

GALANTHUS · Snowdrops

They require very little attention and can remain undisturbed for years. They like rather moist and cool soil. To get a lovely effect they must be planted thickly, while they can be grown under trees and shrubs, in woodlands and in lawns. In the latter case, the lawn should not be mown before the leaves are withered, or next year's blooms may be spoiled.

Nivalis. This is the old-fashioned favorite. Its lovely white nodding blooms are out before the frost is out of the ground; one of the lovely bulbs that tell us Spring is almost here. A group naturalized in the shade of shrubs or under trees is worthwhile. Once planted they remain for a lifetime.

50c. per doz., $3.50 per 100

IXIAS

Ixias display their refined beauty early in June. Very thin though strong stems, 10 to 12 inches. Bears small bouquets of many flower cups in the most beautiful colors and shades. They are very nice in groups, beds and borders and do extremely well for cut flowers. Plant 2 inches deep. A mixture of colors is supplied.

30c. per doz., $2.25 per 100

DUTCH IRIS · Bulbous

The Hardy Dutch Iris produces "Orchidlike" flowers of magnificent clear colors. They come to bloom immediately after the last of the Mayflowering Tulips are gone. The flowers of lasting quality are borne on strong stems surrounded by long, narrow leaves. They are most valuable for cutting and yet they are wonderfully effective planted in groups, beds or borders. Bulbs can be left in the ground undisturbed for years. Height 20 to 27 inches. Plant 5 inches deep and 5 inches apart.

Celestial. Bright blue. 50c. per doz., $3.50 per 100.

D. Haringh. White lilac shaded. 50c. per doz., $3.50 per 100.

Imperator. Dark blue, brilliant orange blotch, large flower, very showy. 50c. per doz., $3.50 per 100.

Theo. de Bock. Almost bronze colored, very interesting. 50c. per doz., $3.75 per 100.

White Excelsior. A distinct variety of pure white, large flower. 50c. per doz., $3.50 per 100.

Yellow Queen. An even tone of golden yellow. Very extra. 70c. per doz., $5.00 per 100.

RAINBOW MIXTURE OF DUTCH IRIS

A great many different colors are represented in this mixture.

45c. per doz., 90c. per 25, $3.25 per 100

MUSCARI · Grape Hyacinths

Very beautiful little flowers for planting in masses, either in shade or where exposed to the sun. They produce flower spikes thickly set with small, bell-like blooms.

Plant out in herbaceous borders, in the rock garden, naturalize, and leave them undisturbed. Each year they will add to their already profuse blooming qualities. Plant 2–3 inches deep and 2 inches apart.

Heavenly Blue. Best for mass planting. Heavenly blue shade. 35c. per doz., $2.50 per 100.

SCILLA CAMPANULATA
Wood Hyacinth

Bears spikes 14 inches high, of bell-like flowers. Plant 5 inches deep, like shady situation. Very effective for borders; will grow under Fir or Pine trees. Bloom in May.

Blue. Clear blue. 35c. per doz., $2.50 per 100.

Pink. Clear pink. 35c. per doz., $2.75 per 100.

SCILLA SIBIRICA · Blue Squill

Spikes 3 to 4 inches high of small, drooping, bell-like flowers of bright blue color. For edgings and masses in beds and borders, as well as for naturalizing Scillas are most valuable. Plant 3 to 4 inches deep. Blooms in April.

45c. per doz., $3.00 per 100

Single Jonquil. Delightfully fragrant, pure golden yellow flowers. Very free blooming. 90c. per doz., $7.00 per 100.

PAPERWHITE NARCISSUS

Dishes of these, grown in pebbles and water, may be had in bloom continuously from Thanksgiving until Easter. The best method is to keep your bulbs in the containers in which they are shipped to you and to store them in a moderately cool, dry place. Plant different lots every three weeks from October 1st until March 1st, and you can enjoy a constant succession of bloom.

60c. per doz., $1.20 per 25, $4.50 per 100

MIXED NARCISSUS FOR NATURALIZING

Plant these in every spot, in every corner, under hedges, trees, shrubs in woods and lawns and rockeries, in dry or moist soil, everywhere, where they can be left alone and increase from year to year. A splendid mixture containing the various types of Narcissus.
